-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

UNITED STATES DEPARTMENT OF COMMERCE  
Patent and Trademark Office  
ASSISTANT SECRETARY AND COMMISSIONER OF PATENTS AND  
TRADEMARKS  
Washington, D.C. 20231

Paper No:20060920  
Application No:10/724690  
Filing Date: December 2,2003

1. Newly submitted claims 8-17 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Newly submitted claims 8-17 are not directed to a system which "takes care" of the telecommunications between monitoring and owners of elevator/escalator/door systems but rather an installation/monitor/maintenance company which provides "one stop billing".

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 8-17 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claims 1-7 have not been cancelled.

2. The amendment filed 6-22-06 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

Art Unit: 2837

None of the material added to page 6 in reference to the figure as well as the figure itself can be found in the original disclosure which merely provides a link between elevator maintenance company and owners in terms of the telecommunications system rather than an installer, monitor and maintenance company which provides all in one service.

Applicant is required to cancel the new matter in the reply to this Office Action.

3. Claims 4-7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from a multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims not been further treated on the merits.

4. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are alternative and contain many references to environment of use all of which are "included".

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Wilson (6578675).

Wilson et al teaches in figures 1-3 an elevator system wherein advertising is provided from a subscription service to the elevator. The service can further provide billing/accounts, marketing, sales as well as maintenance/service.

7. Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Hamada (2002/0173970). Hamada teaches in figures 1-17, an elevator maintenance contract support system.

Art Unit: 2837

An elevator maintenance contract can provide maintenance plans and conditioning monitoring.

As illustrated, the contract includes the communications network 3.

The contract can further be based as a full contract or checking contract.

8. Applicant's arguments filed 6-22-06 have been fully considered but they are not persuasive.

As stated above, the newly presented claims are held withdrawn based on original presentation as well as new matter incorporated into the specification.

Wilson and Hamada provide the monitoring of the telecommunication between an elevator and a monitoring company and provides invoices and either full or checking contracts.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

A shortened statutory period for response to this action is set to expire 3 months from the date of this letter.

Failure to respond within the period for response will cause the application to become abandoned. 35 U.S.C. 133
